SPECIAL NOTICE DARPA-SN-27-03
Cattle Run Proposers Day
EVENT DATE: **10 November 2026**
REGISTRATION DEADLINE: **4 November 2026, 12:00pm EST**
REGISTRATION WEBSITE: https://cvent.me/BVOW3V
TECHNICAL POC: **Mr. Steven Chambers, STO Program Manager**
E-MAIL: **DARPA-SN-27-03@darpa.mil**

PROPOSERS DAY:
DARPA is hosting a Proposers Day in support of **DARPA-SN-27-03 Cattle Run** program on **Tuesday, November 10, 2026,** at the **DARPA Conference Center (675 North Randolph Street, Arlington, VA 22203)** from **8:00am** to **5:00pm EST**. The purpose of this conference is to provide information on the **Cattle Run** program, promote additional discussion on this topic, address questions from potential proposers, and provide a forum for potential proposers to meet for teaming opportunities.

PROGRAM OBJECTIVE AND DESCRIPTION:
The Defense Advanced Research Projects Agency (DARPA) Cattle Run program seeks to enable cost-effective cislunar constellations by developing and demonstrating autonomous spacecraft that leverage solar sails or other renewable propulsion for station keeping and maneuverability over long mission durations in cislunar space. The program initially focuses on rapidly developing and launching a demonstrator spacecraft below geosynchronous earth orbit to show how renewable propulsion can achieve sufficient acceleration, accurate vehicle control, and autonomous Guidance, Navigation, and Control (GNC). Later objectives for the program include developing and launching multiple spacecraft to demonstrate cislunar operation.

REGISTRATION INFORMATION:
DARPA hosts Proposers Days to promote teaming arrangements between researchers; provide potential performers with information on whether and how they might respond to the Government's research and development solicitations; and to increase efficiency in proposal preparation and evaluation. Therefore, Proposers Days are open only to registered potential proposers.

Participants must register **No Later Than 12:00PM EST, 4 November 2026,** at the following website: https://cvent.me/BVOW3V. Directions to the facility and other materials are also available on the website. There is no registration fee for attending this conference. Due to space limitations of the conference facility, attendance will be limited to the first **160** registrants, and no more than 2 representatives per organization.

ONE ON ONE SESSIONS:
Following the conclusion of the Cattle Run overview presentations, individual 10-minute one-on-one sessions will be available during the Proposers Day with Mr. Steven Chambers from 1:00-5:00pm (EST). To request a session, please indicate your interest when registering. A follow-up confirmation email will be sent if a timeslot is available. To ensure fair access, duplicate requests from the same organization will be combined into a single timeslot.

INDUSTRY INTERACTIVE EXCHANGE:
This interactive exchange provides an opportunity for direct engagement, discussion, networking, and exploration of potential partnerships and practical applications. Participants are encouraged to bring handouts, business cards, and other informational materials to support discussion with attendees.

Specific content, communications, networking, and team formation are the sole responsibility of the participants. DARPA does not endorse the organizations participating in or the information provided during the exchange.

ELIGIBILITY NOTICE:
The Proposer Day will be held at the Controlled Unclassified Information (CUI) level. All attendees must be U.S. Citizens. **No Foreign Nationals permitted.**

All attendees will be required to present government issued photo identification upon entry to the event. Additionally, all U.S. Citizens are required to submit a U.S. Citizenship Verification form (**DARPA eForm 104**), which will be provided during registration, in order to attend this conference.

The Proposers Day does not constitute a formal solicitation for proposals or proposal abstracts. Attendance is voluntary and is not a prerequisite for responding to solicitations. DARPA will not provide reimbursement for any costs incurred to participate in this Proposers Day.

ADDITIONAL ELIGIBILITY INFORMATION:

Cybersecurity Maturity Model Certification (CMMC) Requirements: Controlled Unclassified Information (CUI) and Controlled Technical Information (CTI) on Non-DoD Information Systems

This Program and any resultant Program Solicitation (PS) will include Controlled Unclassified Information (CUI). The Government will verify that attendees and proposers meet CMMC Level 2 requirements. CMMC Level 2 Self-Assessments focus on the protection of CUI and incorporates the 110 security requirements specified in NIST SP 800-171 Rev 2.

Attendees and proposers must have a current annual CMMC affirmation, submitted by an authorized Affirming Official, posted in SPRS. Further, as some entities may have multiple business segments, multiple CAGE codes, etc., DARPA must reasonably be able to relate the CMMC UID in SPRS to the proposing entity.

This verification will be performed by checking the Supplier Performance Risk System (SPRS) using the CMMC Unique Identifier (UID). **Attendees must provide their CMMC UID and organization when registering.**

(Note: SPRS is housed within the Procurement Integrated Enterprise Environment https://piee.eb.mil; an additional resource on SPRS is located here: https://dodcio.defense.gov/Portals/0/Documents/CMMC/CMMC-SPRS.pdf)
